PROFESSIONAL SUMMARY

Front-end mobile developer with 3+ years of experience building high-performance web and cross-platform mobile applications using React, Next.js, TypeScript, and Flutter. Self-taught engineer who has independently mastered a modern full-stack frontend skillset, with a proven track record of delivering scalable, user-centric digital products with measurable business impact — including Web3 integrations and cloud-powered applications.

WORK EXPERIENCE

Frontend & Mobile Developer — EsteraX

Kabul, Afghanistan | July 2024 – Present

- Developed cross-platform mobile applications using Flutter for iOS and Android, achieving a 25% improvement in app adoption and user retention.
- Built 5+ client websites using Next.js and React.js, achieving Lighthouse performance scores above 90 and improving organic search visibility through server-side rendering and structured metadata.
- Implemented complex front-end features including animations, real-time charts, and state management using GSAP, Framer Motion, and Redux Toolkit.
- Collaborated with designers and backend engineers to deliver scalable, maintainable solutions using TypeScript, TailwindCSS, and Axios.

Frontend Developer — Guli Surkh

Kabul, Afghanistan | March 2023 – June 2024

- Designed and developed 3 e-commerce and educational platforms for local schools and universities serving 500+ users, improving accessibility compliance and reducing average page load time by 30%.
- Developed intuitive front-end interfaces using React, Redux, and Bootstrap, reducing user error rates and increasing task completion rates across platforms.
- Integrated third-party payment and authentication APIs (e.g., OAuth 2.0) into 4+ client platforms, enabling secure transactions and streamlining user onboarding flows.
- Managed PostgreSQL databases for client institutions, designing schemas and optimizing queries to improve data retrieval efficiency across internal systems.

SKILLS

Languages: JavaScript, TypeScript, Dart, HTML, CSS

Frontend Frameworks: React.js, Next.js, Flutter, React Native

Styling: TailwindCSS, styled-components, @emotion/react, GSAP, Framer Motion

State Management: Redux Toolkit, Zustand

Backend / APIs: REST APIs, GraphQL, OAuth 2.0, Strapi

Databases: PostgreSQL

Practices: CI/CD, Agile, Performance Optimization, Unit Testing

PROJECTS

Shahre Ketab — Web & Mobile App [shahrelketab.app](#)

- Built and deployed the Shahre Ketab web platform using Next.js with server-side rendering, achieving sub-2s load times for a book discovery service with 1,000+ titles.
- Developed the cross-platform mobile app with Flutter, delivering a seamless experience on Android and iOS.
- Designed and integrated a Strapi CMS backend for dynamic content delivery and admin control; implemented secure user authentication and efficient state management.

Stack: Next.js, Flutter, Strapi, TypeScript, TailwindCSS, REST API

Raga — Public Website raga.space

- Engineered the Raga public website using Next.js and Zustand, optimizing Core Web Vitals scores and integrating dynamic content via REST APIs to support real-time updates across the platform.

Stack: Next.js, TypeScript, TailwindCSS, Zustand, REST API

EDUCATION

High School Diploma — Hamayoun Shahid High School, Kabul, Afghanistan | Graduated 2021 | GPA: 3.46/4.0

Online Certifications & Courses

freeCodeCamp — Completed courses in:

- Responsive Web Design (HTML, CSS, Flexbox, Grid)
- JavaScript Algorithms and Data Structures
- Front End Development Libraries (React, Bootstrap, jQuery)
- Python for Everybody

Coursera — Completed courses in:

- Front-End Web Development (HTML, CSS, JS, React)
- Mobile App Development with Flutter (UI design, widgets, Firebase integration)
- Introduction to Programming (Python basics, problem-solving)
